

Maths

This term, Year 2 will look at the numbers 1-100 inside out and forwards and backwards. We will know what each digit represents in a 2-digit number. We will also look at adding and subtracting mentally across 10 using known facts – not our fingers.

History

Our learning about the Georgians will be lots of fun! We will learn what monarchy means, why the Georgian period started and comparing the different Georges.

Geography

We will look at the 4 different countries of the UK and compare and contrast them. Children will also need to be able to learn the seas and oceans that surround us.

English

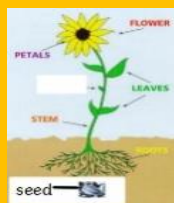

In English, we will embark on some amazing learning journeys. We will look at the make up of a sentence (subject and verb) and how we can build sentences around these. We will also use our 5 sentence starters to help create our own stories based on books we have read.

Year 2's Autumn Term!

Science

In Science, we learn about Plants. We will look at different seeds and bulbs, the different parts of a plant and also be able to recall the names of some common plants that we find in England.

Art

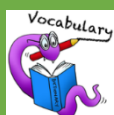

This term in Art we will focus on natural art and making patterns like Andy Goldsworthy. Children gain a deeper understanding of colour tones found in nature and make their own piece of natural art.

DT

This term in DT, we will look at freestanding structures. We will learn how to make a structure stable using different joining techniques. All this knowledge will help us to create a piece of playground equipment for a lego man.

Reading

Reading will be lots of fun this term. We will use our books from English to read and gain a deeper understanding of them while building our speed and fluency.

Jigsaw

This term our Jigsaw learning will be called **"Being me in my world"** and **"Celebrating Difference"**. We will think about what makes a great learning environment. We will celebrate what makes us unique and look at the similarities and differences between ourselves and our friends!
